Guaranteed 15% or more*

Have your existing providers left you guessing whether you were getting the best rates and service?

Intelligent Bills is a professional services firm focused on helping its clients draft, develop and implement Total Telecom Cost Management Solutions. Our company's mission is to deliver significant reductions in network expenditures, lower operational costs and improve on process efficiencies.

Through the Intelligent Bills Customer Advantage Program (CAP), we identify for our clients if their Rates, Service Level Agreements, Terms and Conditions are commensurate with today's telecom market services.

We begin by performing a benchmark of your telecom services against other providers and other companies of similar size, spend and geographic make-up, so we can best determine whether an opportunity may exist to make improvements and create additional savings, usually in excess of 15%.

Then by cross referencing the datasets we cultivated, against other providers that meet and exceed your organization's specific needs, we are able to develop three to four different solutions, affording you the ability to select a provider of your choice for placement of these services or make a determination on whether to renegotiate your existing agreement.

Our management team over the years, developed strategic relationship agreements with over 25 major telecom carriers that includes all the RBOCs, IXCs, and the leading CLECs, DLECs, and ISPs. By forming these alliances and being *carrier neutral*, we offer a spectrum of competitive advantages to our customers, including aggregation of pricing structures, extensive partner research, and access to partners technical staff to facilitate meetings such as data center tours.

We've identified through our 15+ years of telecom cost management experience that each provider has a set core of strengths that works differently for each client's specific needs. This affords us the ability to formulate a variety of solutions tailored to your organization's business rules and needs.

"Total Telecom Cost Management"

(925) 803-6900

One sample benefit of our service can be described as follows:

Imagine trying to obtain a simple T1 or DSL quote and getting a half dozen or so sales pitches from different providers.

By providing you with a single point of contact, we eliminate the stress associated with identifying a provider able to support your application without compromising the Service Level Agreements.

By procuring contracts directly from each carrier, not only do we provide the most aggressive pricing but most importantly, we insure the highest level of direct carrier support and customer service.

There is no risk or cost for this service.

CAP Benefits:

- Carrier and Product Benchmark
- Wholesale Pricing without the huge commitments
- Reduced telecommunication expenditures
- Invoice & Vendor Consolidation (One Invoice for All)
- Highest return on telecom investments
- Improved Vendor Management
- Cost Allocation Reporting
- Network Management and Monitoring Availability
- Tailored solutions specific to your needs
- Electronic Bill Presentment & Payment
- Subject Matter Expert on Call to address issues
- Price Protection

Intelligent Bills will guarantee a minimum 15% annualized savings on its products or services when compared to your existing telecom spend. In cases by which 15% may not be achieved, the organization will perform a telecom audit free of charge to reach its commitments and guarantee. Industry results of a properly executed telecom audit range on the 7-12% savings.

Guaranteed Savings, That's the Intelligent Bills Difference. . .

Customer Advantage Program

Give us 26 Minutes to Save you a Guaranteed 15% or more*

Our staff of subject matter experts are confident enough, to stand by our guarantee of saving you a minimum of 15% off your annualized telecom spend. We do this to make our clients aware that there are several other ways of promoting cost reductions in excess of 25-40%, but through CAP, we can make an immediate impact.

Ask Us About Other Areas of Cost Reductions:

- Billing Compliance
- Billing Consolidation
- Inventory Reconciliation
- Sourcing
- Telecom Expense Management

Disclaimer: In those cases by which we are not able to achieve the 15% savings, due to recently negotiated contracts or new services recently being added, we will perform a free Audit / Optimization of your telecom environment in order to reach our commitment level of savings. In this type of engagement, the first 15% of savings will all go directly back to our client, any additional savings above and beyond will be shared by the client and Intelligent Bills.
