# ADVISORY SERVICES

We streamline processes, reduce expenses, and increase profits. We come to you with unmatched experience and time-tested, proven methods. We know that a sound plan of action, strategic sourcing, and working as an extension of your team will help achieve your desired goals. These are the keys to our success, and yours.

## TEM and WEM Integration

The startup phase can feel extremely daunting, no matter what stage of telecom or technology expense management your company is in. We help simplify the process, bringing our years of expertise and knowledge of market and pricing trends to help simplify your business transformation to a steady-state.

## TEM/EMM/WEM Sourcing

Procuring contracts with 3rd party vendors can be a daunting, frustrating, and time-consuming process. We can help. At Intelligent Bills, we bring decades of expertise in contract negotiations, a vast library of market Intelligence to ensure competitiveness and in-depth, hands-on technical integration experience.

## Technology Transformation

Companies are challenged to keep up with new and emerging technologies at a swift pace in order to stay competitive. We can help at all stages of technology transformation including vendor selection, performing cost-benefit analyses, identifying underlying risks, ensuring success and driving down costs.

## Corporate Payments

Our expert team of analysts will dive deep into your current budgeting and bills to unlock savings in business and technology as well as identify ways that you can better manage your future spend to capture unrealized profits and forensic savings.

## Mergers and Acquisitions

The Intelligent Bills team will do a full audit and analysis to provide a comprehensive view into potential revenues and growth possibilities, as well as provide sourcing and a detailed plan for implementation once a merger or acquisition is complete.

## Licensing

Our subject matter experts offer the most comprehensive set of independent advisory services for Oracle, SAP, and Microsoft in the enterprise market that impacts 3rd Party Support, License Management, Compliance, Audit and Tune Ups.
